LAÍS PETRI

Education

University of Michigan - School for Environment and Sustainability (Ann Arbor, MI)
Ph.D. Candidate, Environment & Sustainability, April 2023
Supervisor: Prof. Inés Ibáñez

Instituto de Botânica - IBt (São Paulo, BR)
M.A., Plant Biodiversity and Environment, minor in Vascular Plants in Environmental Analyzes, April 2017
Thesis: Exotic plants in an urban Altlantic Forest Reserve
Supervisor: Dr. Eduardo Pereira Cabral Gomes

Universidade Federal de São Carlos (Sorocaba, BR)
B.A., Biological Sciences, Mar 2013

Publications

Peer-Reviewed:

Research Experience

Research Center in Ecology/Instituto de Botânica, São Paulo, BR
Master's Thesis Research, Feb 2015 – April 2017
Areas of research included: invasion by exotic plant species; comparative exotic richness and abundance sample among three different levels of disturbed areas; the influence of the distance from the Botanical Garden (JBSP) in promoting the presence of exotic plants in the natural forest.

Angatuba Ecological Station/Instituto Florestal do Estado de São Paulo
Angatuba, São Paulo, BR
Undergraduate Intern, Sep 2011 – Mar 2013
Investigated the natural regeneration of Brazilian Savannas in areas with recent clearcut of *Pinus* spp. invasion.

Laboratory of Nanostructured and Characterization of Materials/Universidade Federal de São Carlos Sorocaba, São Paulo, BR
Undergraduate Intern, Mar 2009 – April 2011
Development of an immunosensors for HIV from the antigenic peptide p17-1 from the HIV-1 p17 protein using layer-by-layer techniques.

Working-Groups Participation

NEON Science Summit: October 15th to 17th, 2019 – Colorado, BO
Lead the break-out group "Invasion Vulnerability". A paper is in preparation as a result of this collaboration activity to be submitted at *Ecosphere*.
Travel funding: $400.00

NCEAS NEON Working Group: entitle "Vulnerability to invasion"
Duration of the project from 2019-2021, 1st meeting from October 20th to 25th, 2019. Three papers are in preparation.
PIs: Bethany Bradley and Inés Ibáñez

Professional Experience

Florestal Atlântica Comércio e Serviços Ambientais LTDA. (São Bernardo do Campo, SP, BR)
Environmental Analyst, May 2013 – Feb 2015
Preparation of restoration reports, birdlife studies, elaboration and implementation of landscape projects, besides technical consulting in botany and ecology.

Instituto Florestal do Estado de São Paulo (Angatuba, SP, BR)
Undergraduate internship, Sep 2011 – Mar 2013
Developed assistance activities in management routine of a protected area, articulating bimonthly meetings of the Advisory Board, promoting firefighting course, organizing Research and Monitoring Program Workshop. Research projects developed: (i) evaluation of the natural regeneration of Brazilian Savannas in areas with *Pinus* spp. invasion; (ii) analyzed of the Permanent Preservation Areas of the Angatuba Ecological Station (a protected area) surroundings.

MBM herbarium (Curitiba, PR, BR)
Undergraduate internship, July 2012 – July 2012
Activities of collection techniques for exsiccate preparation, field labeling, botanical identification (taxonomy), the inclusion of data collected on the final label, inclusion of specimens in the herbarium, herbarium management, and environmental education actions.

IAC herbarium (Campinas, SP, BR)
Undergraduate internship, July 2011 – Aug 2011
The activities developed included botanical identification (taxonomy), the inclusion of specimens in the herbarium, and herbarium management.

Universidade Federal de São Carlos (Sorocaba, SP, BR)
Undergraduate research project internship, Mar 2009 – April 2011
The routine in the laboratory intended for the fabrication of nanostructured films of materials of biological interest for applications in biosensors. Specifically, the preparation of an immunosensor for HIV from the antigenic peptide p17-1 from the HIV-1 p17 protein using layer-by-layer techniques.

Volunteer and Community Organizing Positions

Angatuba Ecological Station, SP (protected area in Brazil): 2016 (Activities to implementation of the Environment Educational Program at Angatuba Ecological Station, Angatuba, São Paulo, Brazil)
Academic Center C.A. Lobo Guará: Nov 2010 – Mar 2012 (Vice-secretary, Academic Center C.A. Lobo Guará, Universidade Federal de São Carlos campus Sorocaba, Brazil)

Events Facilitated and Organized

Research and Monitoring Program Workshop, at Angatuba Ecological Station, Angatuba, São Paulo, Brazil. Nov 2012.
XXII EREB – Regional Meeting of the Southeast Biology Students: "Sustainability and Development: synergistic or antagonist ideas?". Nov 2011
I FUMU – University's Music Festival, Universidade Federal de São Carlos campus Sorocaba, Brazil. Nov 2011.
I Cycle of Lectures on Landscape Ecology and Conservation of NEEPC – Landscape Ecology and Conservation Group, Universidade Federal de São Carlos campus Sorocaba, Brazil. Oct – Nov 2011.
III "Biology Week", Universidade Federal de São Carlos campus Sorocaba, Brazil. Oct 2009.
III "Sustainability Week of Sorocaba", Universidade Federal de São Carlos campus Sorocaba, Brazil. Set 2009.

Field Experience

Michigan, US: Mar – Oct 2019 (dissertation field research)
Boituva, SP, BR: Mar – Jun 2018 (vegetation structure identification and conservation index application, Semideciduous Forest)
São Paulo, SP, BR: Sep 2015 – Oct 2016 (thesis field research)
Angatuba, SP, BR: Jan – Oct 2012 (natural regeneration of Brazilian Savannas field research); Sep 2012 – Feb 2013 (vegetation forest investigation of Semideciduous Forest)

Grants

Rackham Conference Travel Grant, Rackham Graduate School, University of Michigan – Michigan, USA, 2019 $800

SEAS travel Grant, School for Environment and Sustainability, University of Michigan – Michigan, USA, 2019 $200

Master scholarship, CAPES Foundation, 2015 – 2017
Undergraduate internship scholarship, Fundap, 2011 – 2013
Undergraduate research project scholarship, CNPq, 2009 – 2011

Awards & Fellowships

Charles Lathrop Pack Foundation Award (PhD), School for Environment and Sustainability, University of Michigan – Michigan, USA, 2020, $2,000

William D. Drake Prize, Matthaei Botanical Gardens and Nichols Arboretum, University of Michigan – Michigan, USA, 2020 $1,500

Student Conservation Research Award, Matthaei Botanical Gardens and Nichols Arboretum, University of Michigan – Michigan, USA, 2019 $2,000

Jovem Cientista Award, 1st place, I Jornada Científica da Universidade Federal de São Carlos – Sorocaba, São Paulo, Brazil, 2010

Mentorship

Neal Evan Harbaugh from Undergraduate Research Opportunity Program during Academic year 2019-2020, and 2020-2021.

Keely Justine Cox from Undergraduate Research Opportunity Program during academic year 2019-2020.

Te'Yah Wright from Doris Duke Conservation Scholars Program during 10 weeks in Summer 2019

Conference Presentations

L Petri, S A Z Schaffer-Morrison, G Liu, S K Schueller, I Ibáñez (2020). Characterizing the resistance and the vulnerability of terrestrial plant communities to biological invasions: A meta-analysis to inform management. Ecological Society of America, Utah [online], US.

L Petri, I Ibáñez (2019). *Identifying features of resistance to biological invasions in forest ecosystems.* Ecological Society of America, Kentucky, US.

L Petri, E P C Gomes (2016). *Which exotic plant species are in the native vegetation of the Fontes do Ipiranga State Park, São Paulo - SP?* 23ª Annual Meeting of Institute of Botany, São Paulo, Brazil.

L Petri, E P C Gomes (2016). *Plant exotic species in a reserve of rain forest in an urban area.* 67° National Congresso of Botany, Espírito Santo, Brazil.

L Petri, A C Dias, B H S Prado (2015). *Evaluation of natural regeneration in Cerrado areas after clear cut of Pinus elliottii Engelm.* 22ª Annual Meeting of Institute of Botany, São Paulo, Brazil.

L Petri, J C Coelho, M A Nalon, R H Toppa, B H S Prado (2012). *Delimitation of APP around the Angatuba Ecological Station: adequacy of law and ecological corridors.* International Association for Landscape Ecology (IALE) – Brazil, Bahia, Brazil.

B H S Prado, C H B Monteiro, **L Petri** (2012). *A supressão do Pinus elliottii na Estação Ecológica de Angatuba e a mudança da paisagem.* International Association for Landscape Ecology (IALE) – Brazil, Bahia, Brazil.

L Petri, M Ferreira, M L Moraes (2010). *Immobilization and incorporation of antigenic peptide p17-1 from HIV-1 p17 protein in nanostructured films.* In: Biophysical Society 54th Annual Meeting, San Francisco, United States.

Invited Presentations

Exotic Plants, Biological Invasion and Protected Areas. Department of Environmental Science (DCA), Universidade Federal de São Carlos *campus* Sorocaba, São Paulo, BR, 17 April 2018

The Vegetation of Angatuba Ecological Station. Angatuba Ecological Station, Angatuba, São Paulo, BR, 07 Mar 18

Pinus at Angatuba Ecological Station at Scientific Research And Environment Monitoring Program. Angatuba Ecological Station, Angatuba, São Paulo, BR, 28 Nov 12

Language & Computer Skills

Native **Portuguese**-speaker
Advanced **English**

Technical skills in Plant Identification, R, Past, ArcGIS, QGIS, MapInfo Professional, CorelDRAW; and Microsoft Office. Fluent in Microsoft Windows environment.
