

Landscape Architecture 3YR Accelerated Program Requirements

(51 credits total; 7 foundational credits and 44 credits of non-foundational credits required by Rackham Graduate School)

NOTE: Students may qualify for the accelerated 3-year recognized MLA degree if they have previously earned a degree in landscape architecture from an institution outside of the US or Canada. To verify your eligibility for the accelerated program, please get in touch with an LA faculty member.

Integrated Studio and Visualization (21 required credits)

_____ EAS 586 (3)(f) Place and Environment

_____ EAS 590 (3) Principles of Eco Design

_____ EAS 591 (3) Eco Site Design

_____ EAS 687 (4) Landscape Planning and Analysis

_____ EAS 688 (4) Site Planning and Design

_____ EAS 691(3) Planting Design

Landscape Analysis and Technologies (14 credits)

_____ EAS 531 (4) Princ of GIS

_____ EAS 588 (4)(f) Site Engineering

_____ EAS 501 (3) Professional Practice

_____ EAS 681 (3) Materials & Methods

Landscape History and Theory (3 credits)

_____ EAS 503 (3) Sustainable Sites and Historical Precedent

SEAS Requirements (14credits)

_____ EAS 509 (4) Ecology: Concepts & Applications [Ecological Processes]

_____ EAS 436 (4) Woody Plants [Ecological Processes]

_____ [IAMS Requirement](#) **[SEAS Core] (EAS 531 and 687 will fulfill this requirement but we do not double-count the credits.

_____ EAS 701(6) Ecological Design and Planning [Capstone: Theme Based Master's Project]

Electives

Courses marked (f) are foundational courses and do not count towards the 44 credit hours required by Rackham Graduate School.

Any petitions to substitute or waive a requirement must be approved by appropriate faculty and submitted to the SEAS Student Center. All courses must be taken on a graded basis, if taught for a grade.

Year One	
Fall	
Course	Credits
EAS 436: Woody Plants	4CR
EAS 509: Ecology" (can be taken Fall or Winter)	4CR
EAS 531: Principles of GIS	4CR
EAS 586: Place and Environment	3CR
Winter	
Course	Credits
EAS 701 "Ecological Design and Planning" Master's Project	2CR
EAS 588: Site Engineering	4CR
EAS 590: Principles of Ecological Design	3CR
EAS 591: Ecological Site Design	3CR
Year Two	
Fall	
Course	Credits
EAS 681: Materials and Methods	3CR
EAS 688: Site Planning	4CR
EAS 691: Planting Design	3CR
EAS 701 "Ecological Design and Planning" Master's Project	2CR
Winter	
Course	Credits
*EAS 501 "Professional Practice"	3CR
EAS 503 "Historical Sites"	3CR
EAS 687 "Modeling for Landscape Planning"	4CR
EAS 701 "Ecological Design and Planning" Master's Project	2CR
*Students can take Pro Practice in years 2 or 3
